

# TAICUN LIN (林泰村)

PHONE 0936920099 / EMAIL [mojocuncun@gmail.com](mailto:mojocuncun@gmail.com)

## SUMMARY

- ✓ Windows/Ubuntu/Web APP
- ✓ Familiar on C#/.Net/Python/Javascript
- ✓ Full stack development, integrate from sensor, gateway, server, script, protocol, DB, AI model, image processing cloud on AIoT/Cloud solution.

## EDUCATION

**Master's Degree** in **Nation Taiwan University**  
**Medical Device and Image**  
**Bachelor's Degree** in **Fu Jen University**  
**Computer Science**

## EXPERIENCE

### Full Stack Developer

in **Blueskies.AI**

**2021 - 2022**

- ✓ **AI Model Training** – Use partner AI training tool to train model, and coordinate with customer for collect image for improve accuracy rate.
- ✓ **Ubuntu APP Development** – Provide customer Ubuntu app for AI automatic factory. Ubuntu app full stack development by python/gtk. And integrate AI inference, MQTT/ZMQ protocol, led/speaker hardware. Support customer any issue on our production. And deploy it to factory.
- ✓ **Web Development** – Develop Blueskies.AI website by Webflow tools.

### AIOT Software Engineer

in **INTEL**

**2015 - 2021**

- ✓ **AIoT/Cloud Solution** – Support customer transfer tensorflow/caffe model to Intel OpenVINO format. Customize OpenVINO sample for match special case and integrate it to customers production. Co-work with ODM/OEM/ISP/AI/Client for AI project. Base on POC, programing dashboard UI, integrate protocol(net-mqtt/ hw-rs232..etc), database, AI model, script, customer system, hardware(Gateway/Server/Camera/Sensor), cloud. POC release and verify.
- ✓ **Technical Support** – Provide and programing benchmark, script, UI tools, issue tracking
- ✓ **Technical Marketing** – Solution POC, Workshop, Training, Event Demo(Computex, CIIF..etc)

### Technical Account Manager in Microsoft

**2014 - 2015**

- ✓ **Technical Support** – Using Powershell/C#/.NET to make script of AD/LDAP account management. Develop Web services for control share folder permission. automation and analysis IIS Server log. Exchange batch transfer script. Windows/Exchange/AD/Lync Server deployment. MS production training and write document.
- ✓ **Project Management** – Co-work with SI partner for special project. Project tracking, response customers requirement, customize technical support, production training, test and validation.

### Security Engineer

in **Acer**

**2013 - 2014**

- ✓ **Web Vulnerability Assessment** – Using web vulnerability assessment to scan customer website. Official vulnerability such as OWASP top 10. And validate the scan result. According the result to make a report and provide suggestion.
